DETAILED ACTION

Examiner's Comments

1. This action is in response to applicant's amendment received 20 January 2005. Applicant has amended claims 1, 12-13, 33-34 and 39 and added new claims 43-54. The pending claims now in condition for allowance are 1-17 and 31-54.
2. Applicant's amendments have removed indefinite terminology thereby rendering moot the rejections made under 35 U.S.C. 112, second paragraph.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tom Marsh at 303-338-0997 on Tuesday 1 March 2005.

The application has been amended as follows:

The title has been changed to read --METHOD FOR FILLING AND CAPPING SYRINGES--;

In the specifications, page 1, line 6, following "2001," insert --now US Patent No. 6,813,868,--;

Art Unit: 3721

In claim 1, line 7, "during the removing step for" has been replaced with --during the removing step from--;

In claim 34, line 8, "during the removing step for" has been replaced with --during the removing step from--;

In claim 45, line 9, "during the removing step for" has been replaced with --during the removing step from--.

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance: Applicant's amendments have combined the limitations of allowable subject matter as indicated in the prior office action mailed 8 July 2004. All pending claims are now novel over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
